OVEN INSULATORS AND TADPOLE SEALS AT PYRO SHIELD

Oven Insulators

Tadpole Seals

Pyro Shield offers oven insulators that can be customized to fit your needs. Our tadpole seals and covers, made with high temperature silica fabrics and high temperature silica mats, have a steady state temperature of 1,800°F and a melting point of 3,100°F.

Blankets and seals can be fabricated as needed and can be stud pinned or bolted on the oven as well. Tadpole seals are then secured to the oven door to allow for a tight fit where no air or gasses can escape.
